# Our Capabilities

## 1/2 the cost

of traditional building construction. Long lasting materials mean little to no maintenance cost.

## 1/20m space

required for storage or shipping. Lightweight components mean simpler, space saving transportation.

## 20+

lifespan created by using our sustainable materials and non corrosive aluminium that creates a long lasting structural solution.

# Architecture

# Esports Venue Shanghai

The world's first modular arena, specially built for Esports, was built by Roder China. The square hall with 55 m side length received a total area of 4,000 m<sup>2</sup> due to the installation of high-parterres. Thanks to special profiles, the beams have a total load capacity of 30 tons. The construction lasted only 17 days, the entire construction time including on site was 45 days. In addition to Esports, the Arena has already been used for various other events.

# World Artificial Intelligence Conference

RODER China installed an exhibition center on an area of more than 7,400 m<sup>2</sup> for the World Artificial Intelligence Conference. The gable sides with frameless vertical glass panel facades are the eye-catchers of the innovative hall ensemble. The three impressive pavilions with a ridge height of 15 m are connected by steel roofs in wood look and are now available for conferences and exhibitions.

## Art Exhibition

For the International Exhibition of Contemporary Art, RODER China has built an event hall SOLUTION 30m x 40m with a height of 10 meters for special works of art. The impressive construction, which at the same time had a delicate appearance due to its aluminum-glass façade, put the interior art installation in the right light. Situated directly next to a lake, the inviting glass facade was the perfect combination of the artwork and the Chinese “water village” Wuzhen.

# Hurricane Festival

The Hurricane Festival is one of the biggest music events in Germany. RODER Germany created an architectural highlight: not your average event tent, but the VIP event tent SOLUTION PRIME with three floors and integrated bar. The construction included a terrace from which the guests had the best view directly to the stage. The triple-deck tent with its spacious balconies is the perfect solution for events, festivals and concerts.

# Beach Volleyball Major Series

At the international Beach Volleyball Major Series in Vienna, the RODER construction team created an impressive party location on the Danube Island. In order to allow fans and VIP guests the best view, the double storied event hall 30 m x 50 m received a large covered terrace, galleries inside and an impressive balcony. Nearby, further exclusive event halls and vending tents on 2,200 sqm of space also invited guests to dwell, shop and enjoy.

# BMW OPEN Shanghai

The BMW OPEN Shanghai needed a custom made three story VIP marquee at the 18th hole. The construction had to be installed and dismantled every year. It also needed to be safe enough to accommodate a couple of hundred people. RODER China installed a Triple-Decker 20 m x 30 m with 12 m eave height. A ground terrace and a balcony in the 3rd floor allowed the best view on the sporting events at the 18th hole.

# Formula E

## Berlin E-Prix

For the Berlin E-Prix RODER installed Europe's largest continuous double-deck tent with 185 metres as an impressive base for all drivers, teams and vehicles at this major sports event. Inspired by the future of motor racing the 80 RODER employees installed the structure in record times. In just 10 days it was erected to be "ready to race" for this huge event on the Tempelhofer Feld in Berlin, including sponsor brandings and supply infrastructure.
